Surabaya, Jawa Timur | [linkedin.com/in/yodanataorlandosembiring](https://www.linkedin.com/in/yodanataorlandosembiring) | intip.in/PortoYodaNata

Data-driven Systems & Industrial Engineering student (8th semester, ITS) with hands-on experience in algorithm optimization, data analytics, supply chain, and project management. Achieved a 15% improvement in operational efficiency and boosted customer engagement by 250% (0.06% → 0.21%) through data-driven strategies and market research. Skilled in business analysis, performance reporting, and leveraging tools such as Python, Power BI, and R to deliver actionable insights that drive business growth.

Education

Institut Teknologi Sepuluh Nopember – Surabaya, Indonesia

Undergraduate in Systems and Industrial Engineering | GPA: 3.39 / 4.00

- Activities: HMTI ITS, 180 DC ITS, BEM FTIRS ITS
- Achievements: 1st Place Scientific Article Competition, 2nd Place BPC Diesnat, 1st Place BCC SME ITS

Work Experiences

Unilever Indonesia – Tangerang, Indonesia

Dec 2025 – May 2026

Customer Operation Innovation Planner

- Managed end-to-end planning (demand, MPS, STO) for 20+ SKUs and led 10 projects for promos, new products, and relaunches.
- Coordinated with suppliers to ensure timely material procurement and mapped weekly opening stock to support seamless operational transitions.

Quantitative Modeling and Industrial Policy Analysis (QMIPA) Laboratory – Surabaya, Indonesia

Jan 2024 – Jan 2026

Laboratory Assistant

- Completed 6 projects, including simulation, optimization, and forecasting for different clients within 1 year.
- Analyzed and optimized processes through data-driven models, improving evaluation accuracy by 20%

DRPM ITS (in collaboration with PT HM Sampoerna) – Surabaya, Indonesia

Jun 2025 – Oct 2025

HSE Analyst

- Collaborated with 21 team members to collect occupational safety data from 4 regions in Indonesia (Semarang, Sulawesi, Lombok, and Bali) for a 5-month field project.
- Processed and cleaned 15,570 data points from interviews and observations to identify key pain points in clove farmers' safety practices and proposed feasible improvement strategies.

Bakrie Pipe Industries – Bekasi, Indonesia

Jan 2025 – Feb 2025

Purchasing Intern

- Assisted in the purchasing process by preparing over 70 Purchase Orders (POs) and more than 30 Request for Quotations (RFQs) in one month.
- Achieved an average performance score of 93.3 out of 100 throughout the internship, reflecting high-quality work and attention to detail.

Organizational Experience

BEM FTIRS ITS

Managerial Trainer LKMM

Nov 2023 – Nov 2025

- Delivered engaging self-management and event management training to over 300 students, receiving positive feedback on clarity and effectiveness that contributed to a material delivery satisfaction score of 3.89 out of 4.

180 Degrees Consulting - Institut Teknologi Sepuluh Nopember – Surabaya, Indonesia

Mar 2024 – Mar 2025

Project Analyst

- Develop marketing optimization project strategy for retail business, increase customer engagement on social media from 0.06% to 0.21%.

Himpunan Mahasiswa Teknik Industri ITS Surabaya

Project Officer

Jun 2023 – Oct 2023

- Led a team of 51 in organizing the general election for the Association of Systems and Industrial Engineering, achieving a 96.04% success rate (7% improvement from the previous year).

Recent Project

Retail Substitute Product Optimization – Indonesia

Mar 2025 – Apr 2025

- Developed a simulation-based optimization model using the Simulated Annealing algorithm to determine cost-effective order quantities for substitutable products, improving stock availability from 85% to >95% under budget and space constraints.
- Delivered a 22% total cost reduction by minimizing procurement and holding costs through optimized reorder quantity combinations.

Vinsmart Retail Project – Surabaya, Indonesia

Jul 2024 – Sep 2024

- Developed a data-driven marketing optimization strategy for the retail business, with a focus on increasing customer engagement and refining market positioning.
- Improved targeting accuracy and customer retention increased overall brand visibility and achieved a 250% increase in social media engagement (from 0.06% to 0.21%).
